## BOARD OF HEALTH REPORT

The following is the report of the Board of Health for the year 1917.

The town for the past year has been free from contagious diseases and health conditions remarkably good up to about the last of February when we found we had a case of small pox, two other cases have since developed, a pest house has been established, the patients are well cared for and are getting along well. Measures have been taken to prevent the spread of the disease and we hope that no more cases will develop.

The citizens have made all the improvements suggested in the matter of the removal of rubbish and the removal of objectional matter and the sanitary conditions are good.

EDWARD E. TWOMBLY, M. D.

Board of Health.
